H MILE,GOLD & SILVER EMBROIDERIES WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

Wilbor's Compound of Pure Cod-Liver On and Link.—The savantage of this Compound over the plain Oil is, that the nausenting taste of the Oil is removed, and the whole rendered palatable. The offensive taste of the Oil has long acted as a great objection to its use; but in this form the trouble is entirely obviated. A best of certificates might be given here to testify to the excellence and cuccess of "Wilhow's Cod-Live Oil and Link;" but the fact that it is regularly prescribed by the medical faculty is sufficient. Dr. Thornton left last night for the cap-ital to attend a meeting of the State Board of Health to-day.

During the course of his remarks a New Orleans, at a meeting beld after the inspections had been made. Dr. Thornton said, as reported by the *Picayune* of the next morning, that he was more than gratified at the results of the exhibition The Young Ladies' Guild of Calvary church, assisted by the aid society of that parish, propose to give—for the benefit of their work—a Fete Champetre, in the grounds of Mrs. E. Hunt, No. 287 Beale street, on Wednesday, July 8th, from 8 to 12 o'clock p.m. The entertainment is to be of the most varied, novel and interesting character. In addition to the features of admirable music and choice refreshments charmingly served, there may be ments charmingly served, there may be gratified at the results of the exhibition which had been made by the Board of Health of Louisiana. Actuated by a strong sense of duty to a people with whose hygienic interests he had to an important extent been intrusted, he had come prepared to criticise fairly but severely. What he had seen had impressed him with the intelligence and thoroughness with which the Board of Health of Louisiana had gone to work to solve a great problem.

ments opened in front and connecting at the back with a suction rotary fan of large size and great power operated by steam machinery. This furnace held in each of its twelve compartments an oblong castiron pan, about twelve inches wide, thuty inches long and two and a half inches deep. These pans were made to slide into the furnace and to be taken out at pleasure. In each was placed five pounds of crude sulphur, which being ignited its furnes were drawn by the suction machinery through a gaivanized iron pipe twelve inches in diameter, made in sections, and quickly but together so as to conduct the vapors down into the hold of a ship. This was done practically before the eyes of the burning sulphur were forced into the hold of a large barge, permetting it in every direction, filling every fumes were drawn by the suction ma-chinery through a galvanized iron pipe twelve icches in diameter, made in sec-tions, and quickly put together so as to con-duct the vapors down into the hold of a ship. This was done practically before the eyes of the visitors, and by the time the vapors of the burning sulphur were forced into the hold of a large barge, per-menting it in every direction, filling every cranny and crevice, the cockroaches and bugs lodged in the cracks of the wood were all killed, and it seemed impossible that any living organized creature could surall killed, and it seemed impossible that any living organized creature could survive this ordeal of burning sulphur and sulphuric acid. It was seen issuing in the form of a white vapor through every opening, I wever small. The third feature of the new system was a force pump and hose fitted with a sprinkling mouthpiece like that of a sprinkling-pot.
